# Meet the xKids with Fun Activities

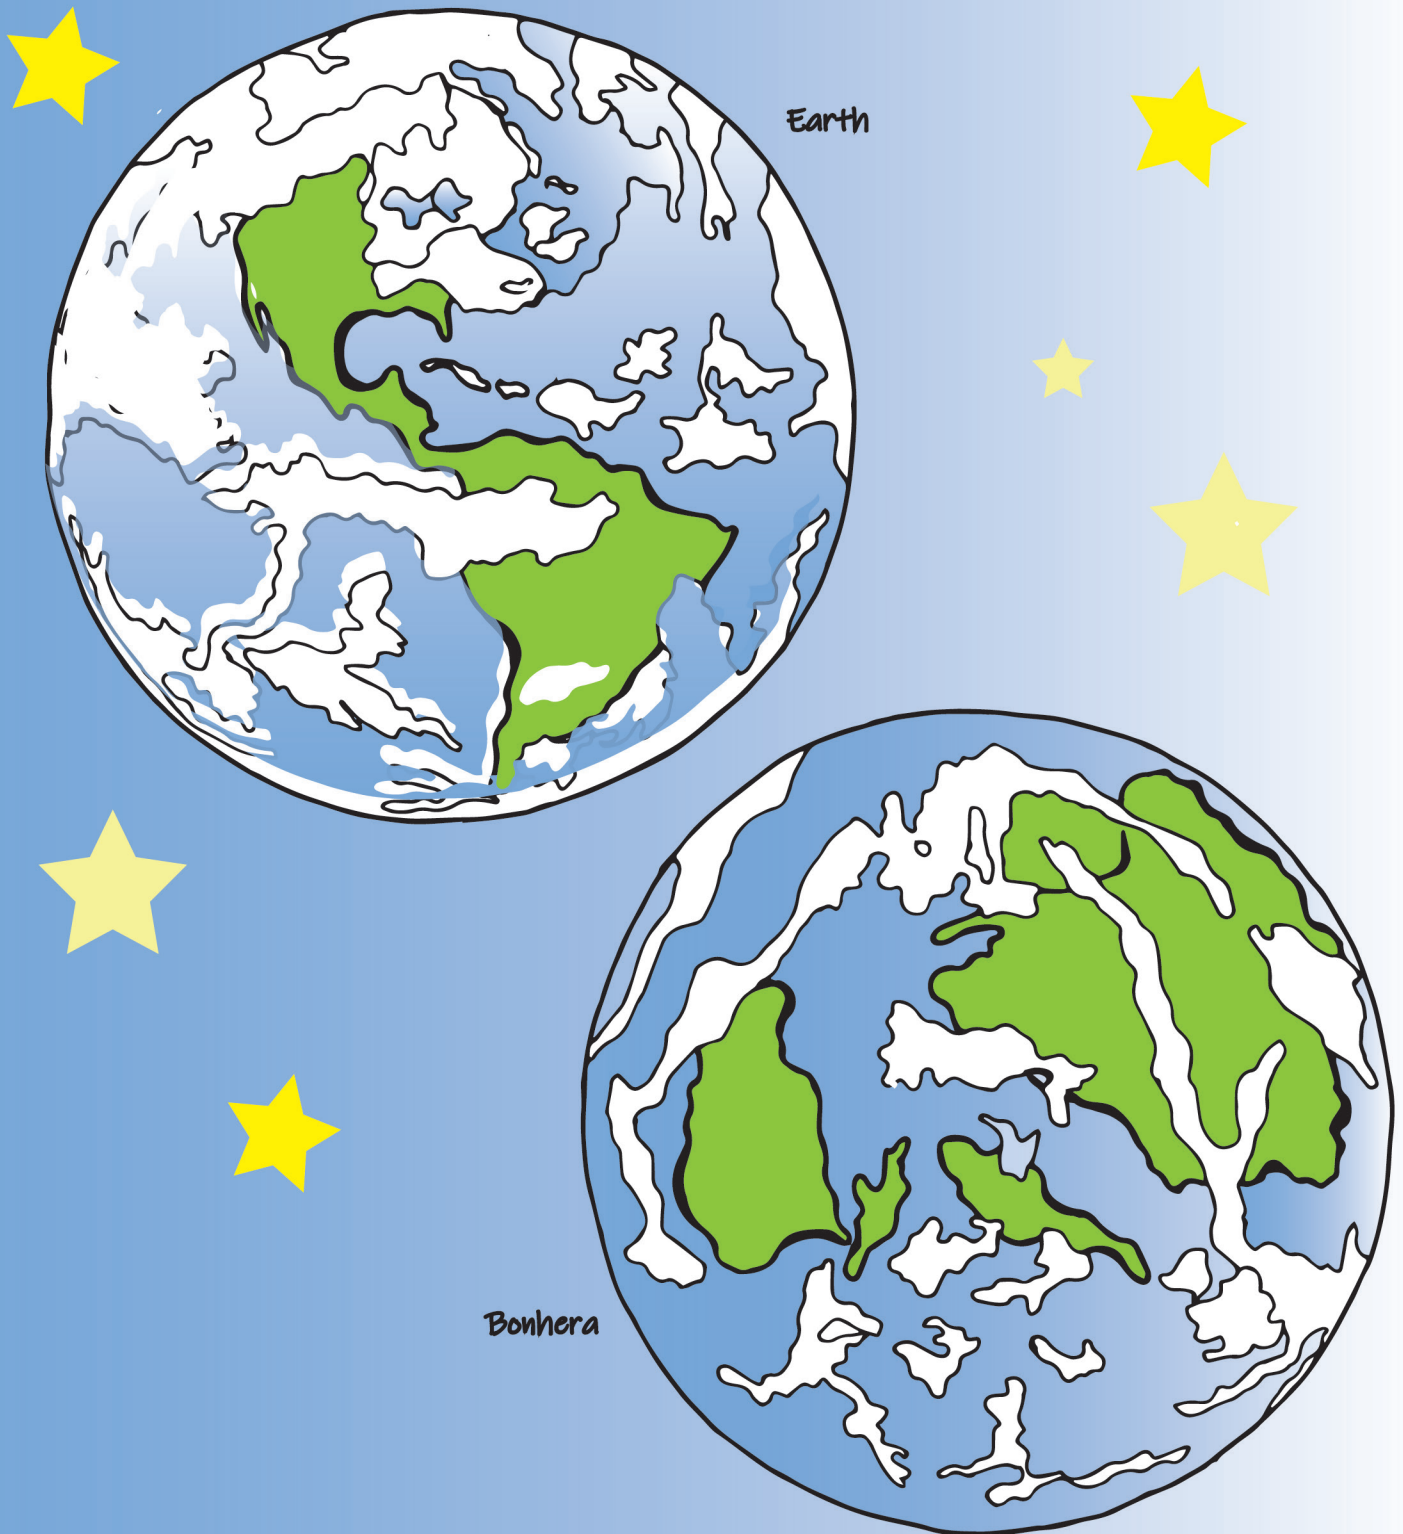

Your Name Here

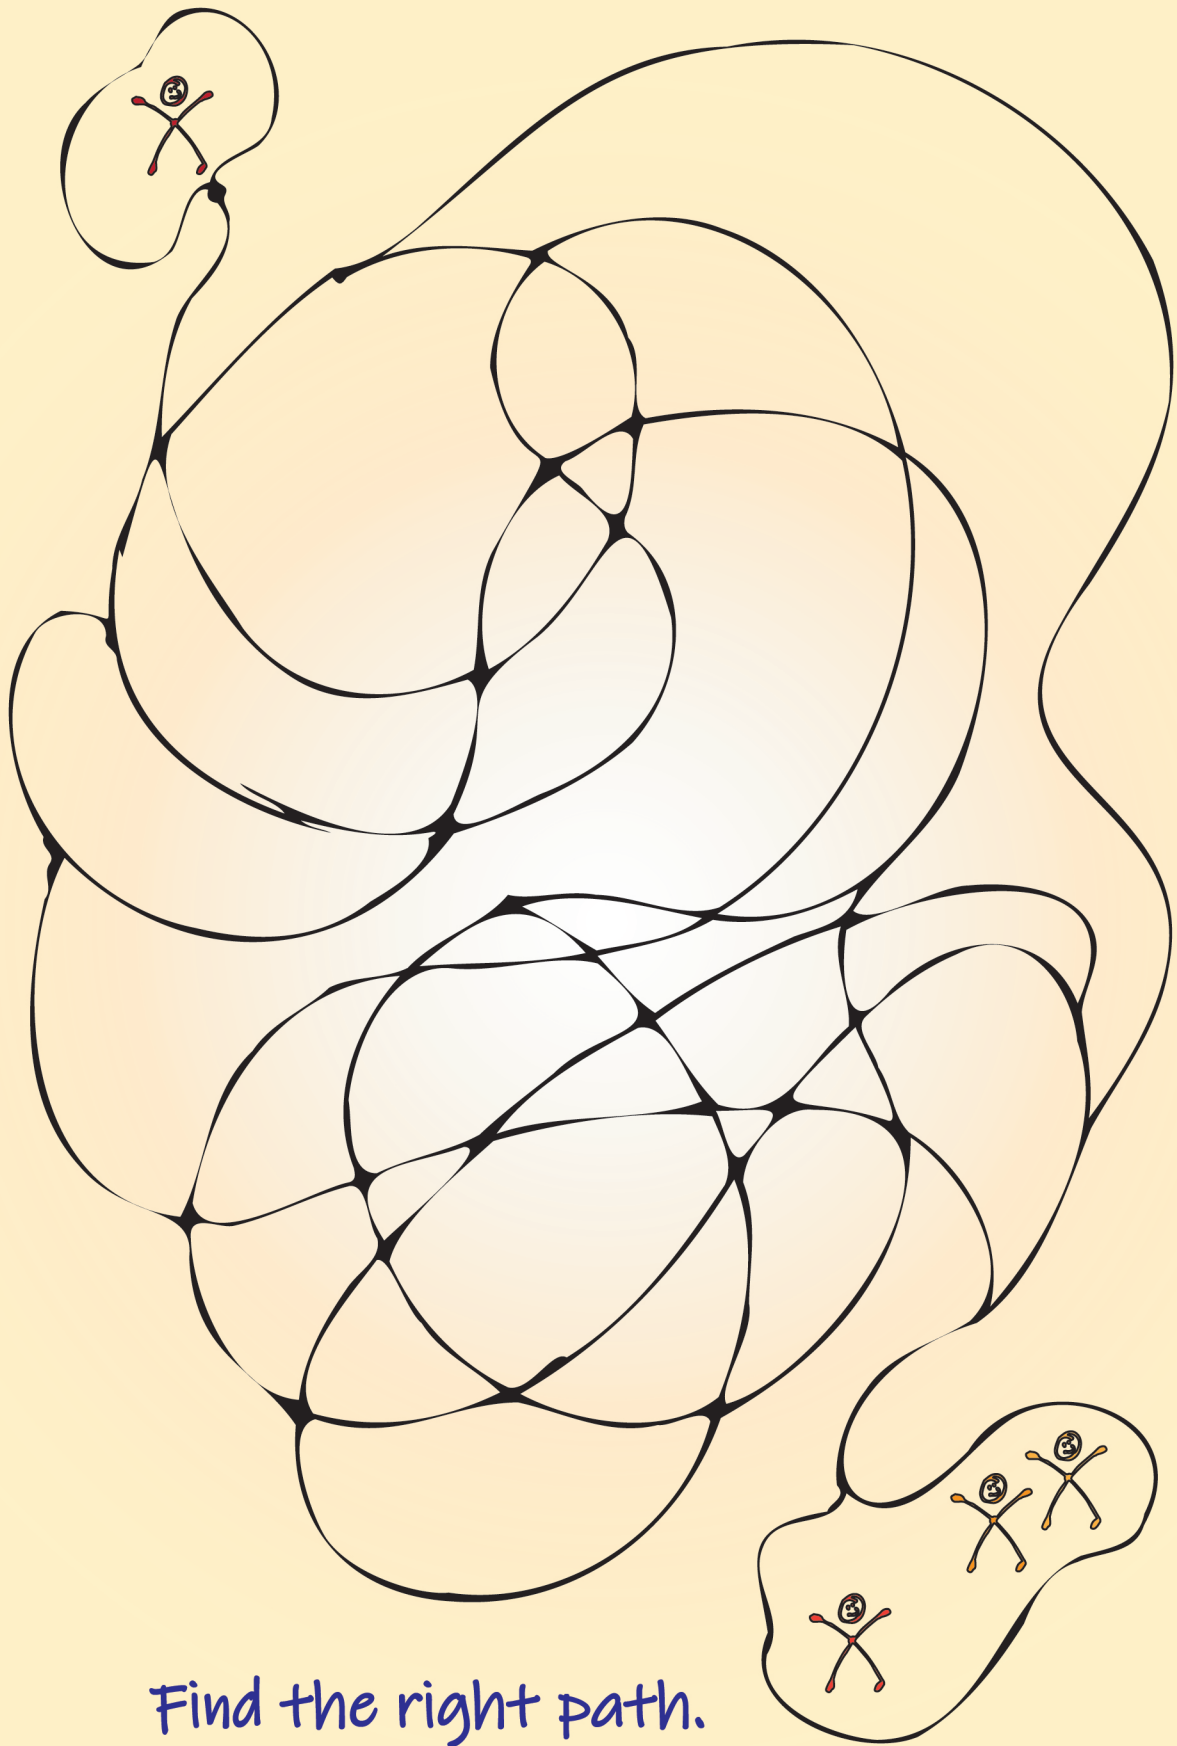

# Collect Autographs

A long time ago people asked others to sign their names  
in autograph books.  
You can do that too.  
And they can draw a little picture.

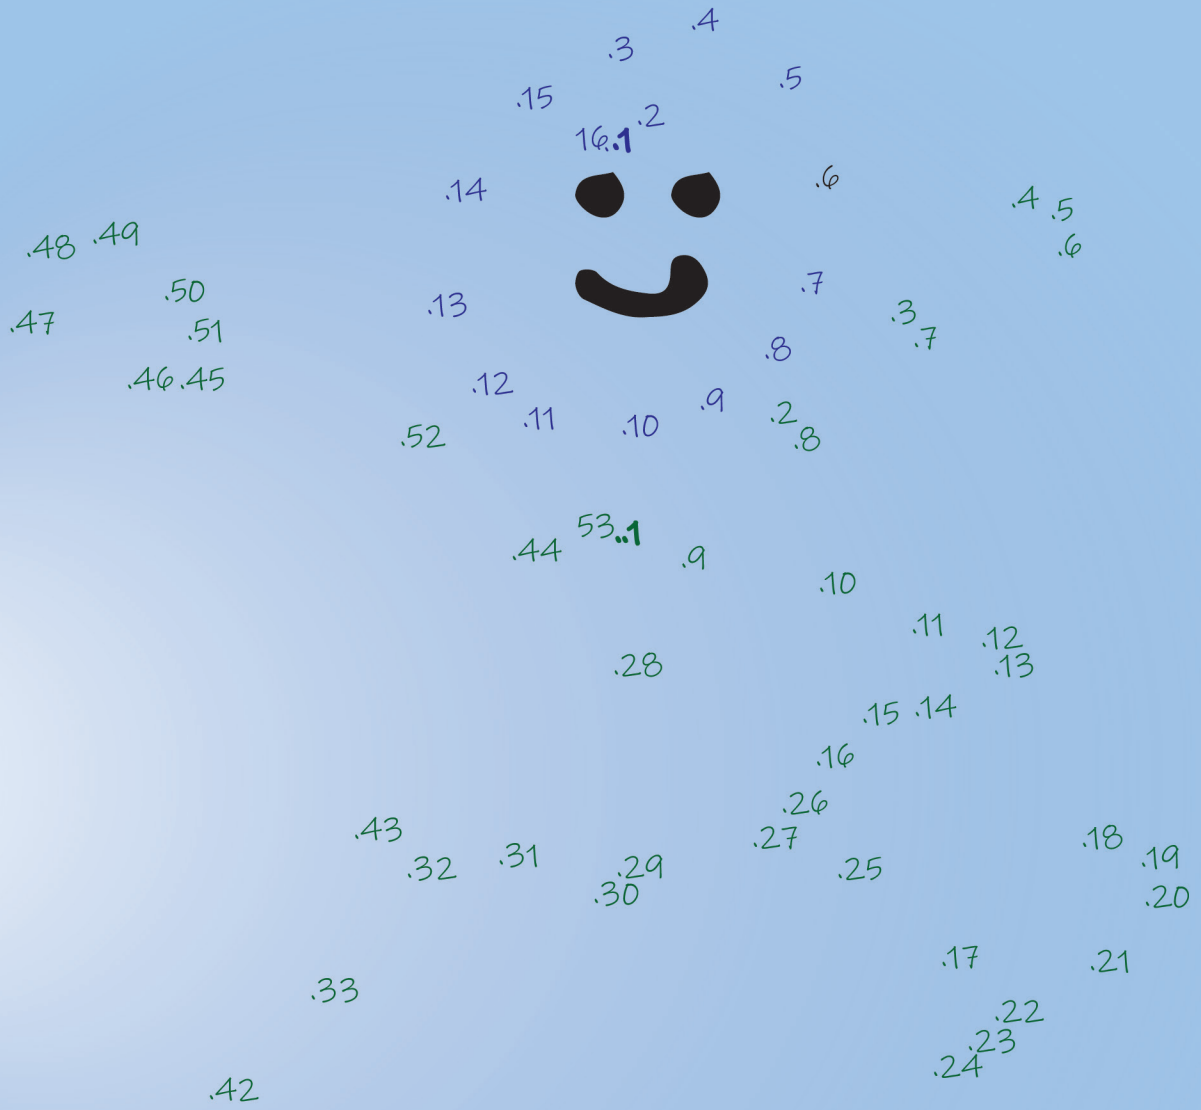

XKids and their families, along with their friends live on a planet very far away. Their planet is named Bonhera.

We call them extraterrestrials because they are not from our planet, Earth. And that is why we call them XKids and XBeings. Oh and also because their bodies are shaped like the letter X.

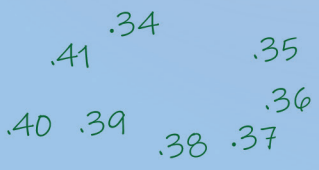

Find the right path.  
Tiny 10 wants to be with friends.

# Guess Who We Are?

Take a look at the front cover of your Activity Book. You can see us there.

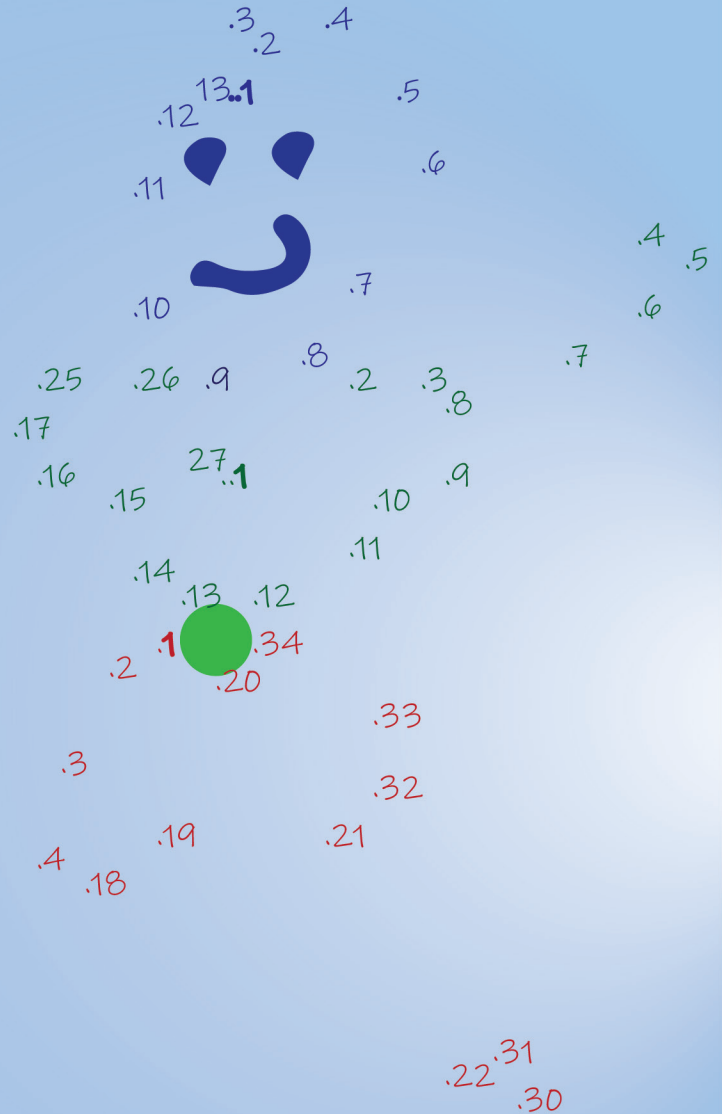

Color me the way you like best.

We are XKids and  
we are friends.

Oops, Walkies went the wrong way from Gran's house.  
And needs help getting home.

WONKY TOWN

# Wonky Town Shapes

Shapes in Wonky Town are - you guessed it - wonky!  
But they are still shapes we know, circles, triangles, squares and rectangles, plus one heart. Mark the shapes when you find them!

Tic Tac Toe, easy game to play. Not always easy to win!  
To win you must get 3 of your play pieces in a row.  
Across, up down or a diagonal, in a row of 3, and you win.

A blue silhouette of a person in a leaping pose, with arms raised and legs spread, enclosed in a light blue circle with a green border. This is one of several identical pieces arranged on a larger green outline of a leaping figure.

Leap

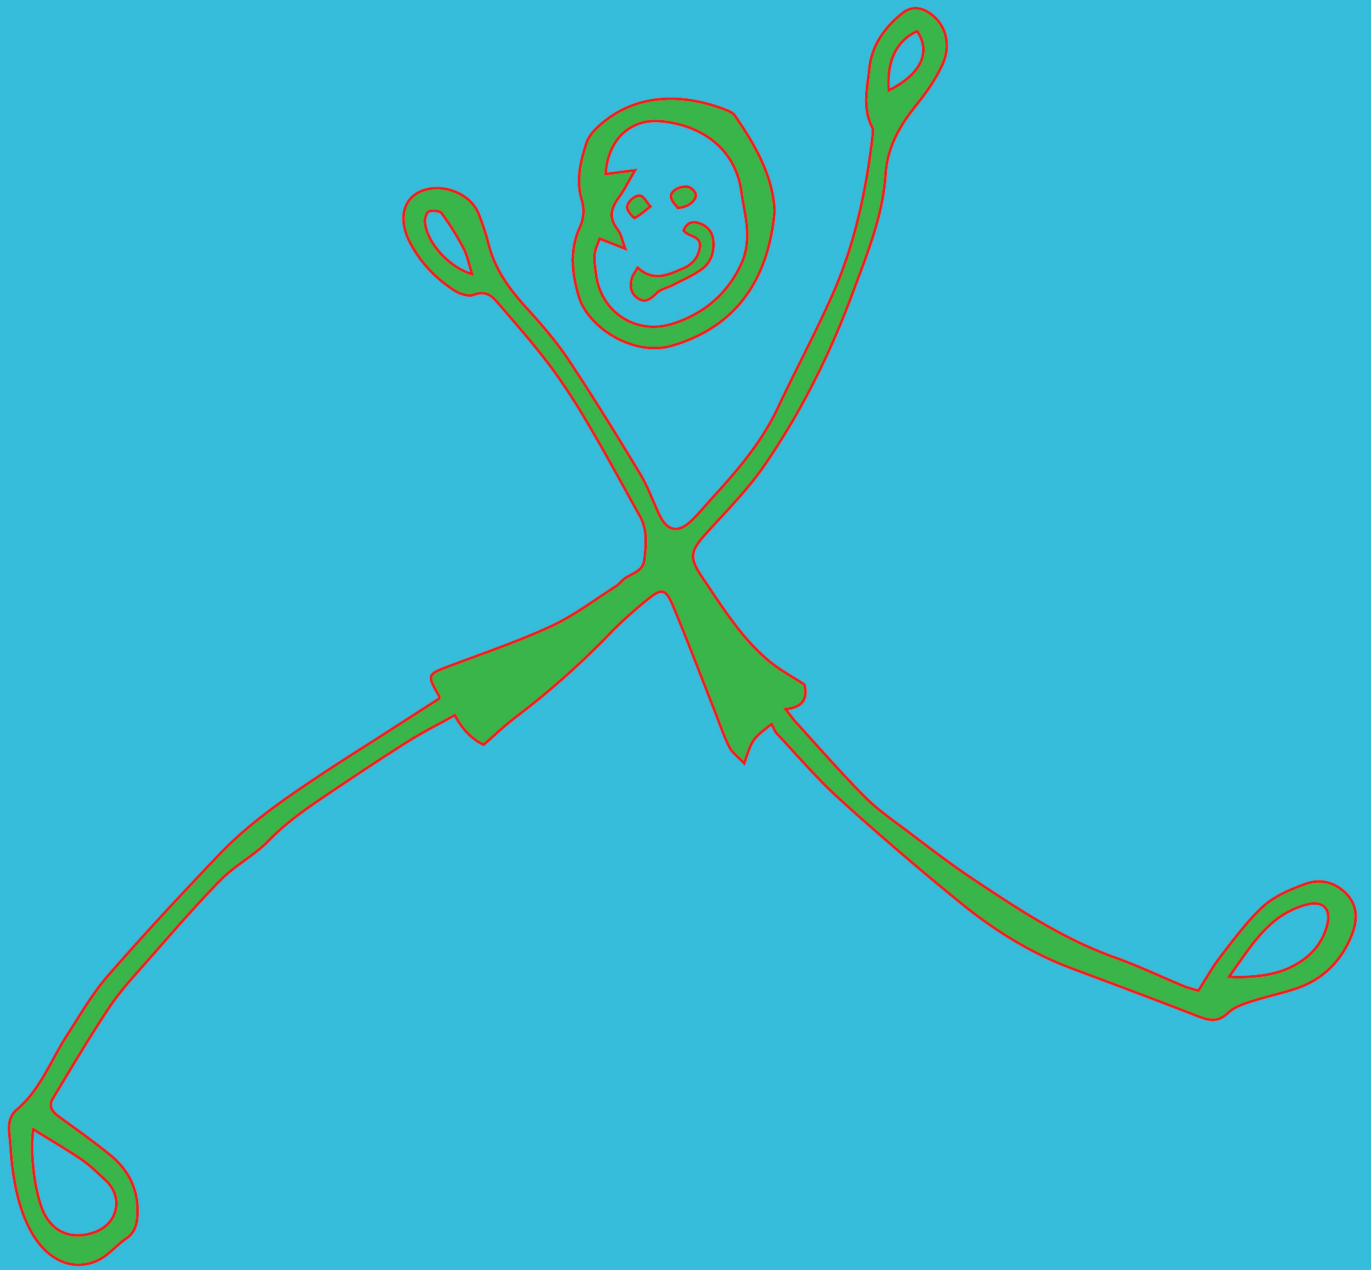

A blue silhouette of a person in a running pose, with arms outstretched and legs in a running stride, enclosed in a light blue circle with a green border. This is one of several identical pieces arranged on a larger green outline of a running figure.

RunRun

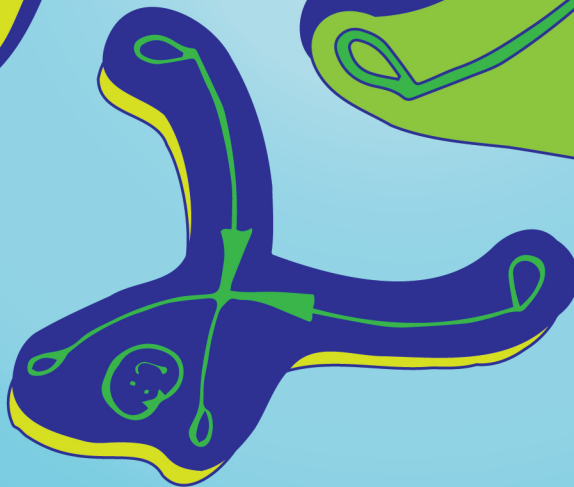

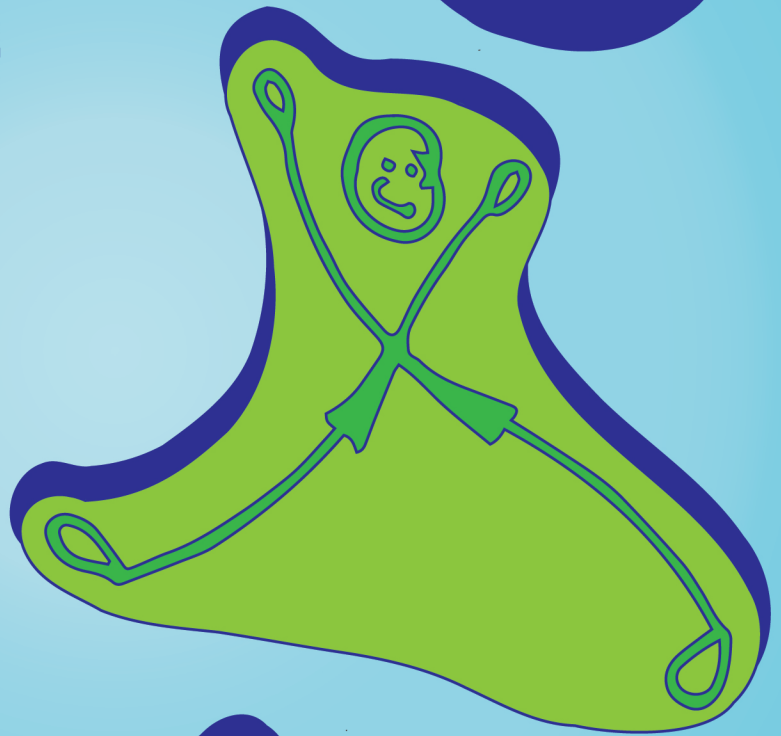

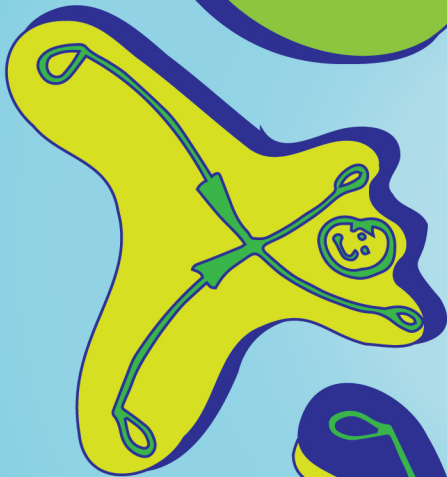

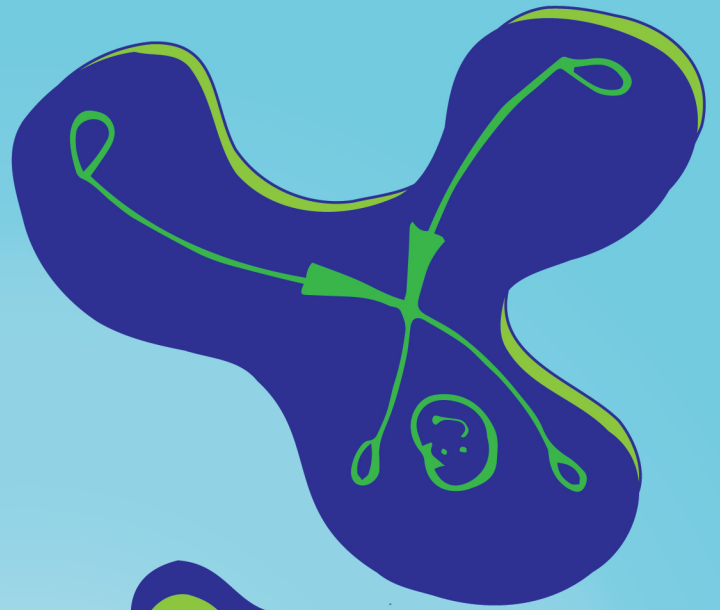

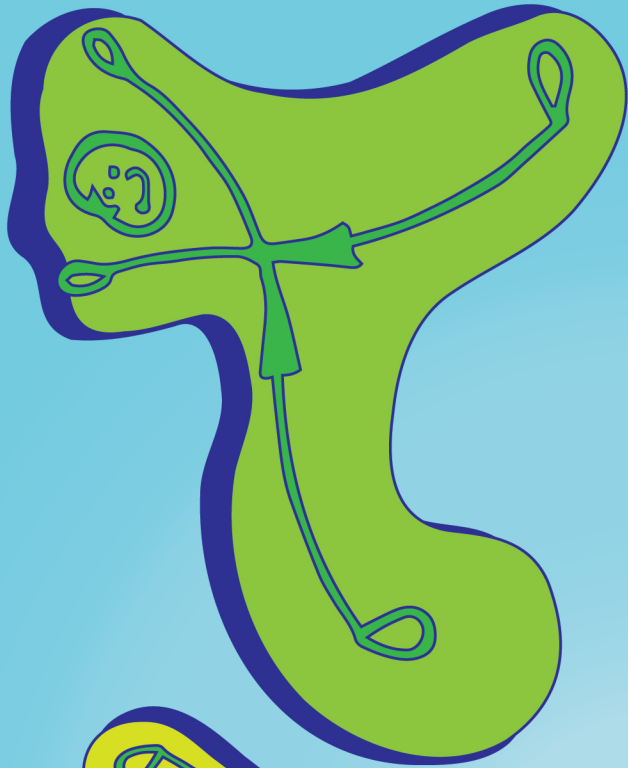

Your play pieces for Tic Tac Toe are Leap and RunRun.  
Carefully remove this page from your book.  
Cut out these circles to play the game.

Go back one page to find the Play Pieces.  
Your play pieces for Tic Tac Toe are Leap and RunRun.  
Carefully remove this page from your book.

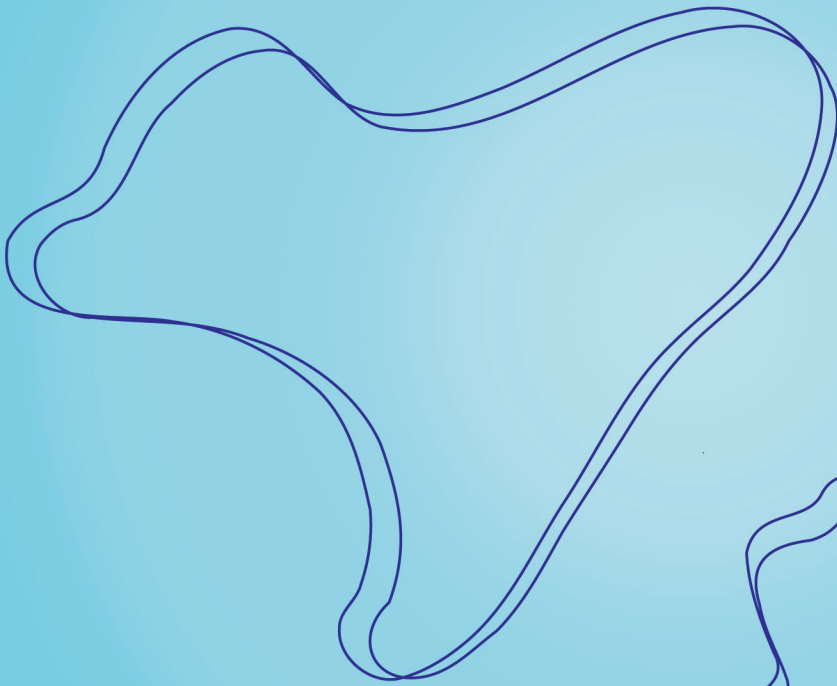

Turn the page to see your puzzle pieces.  
Carefully remove this page from your book.  
On the next page cut out puzzle pieces of Strider.

Strider has a puzzle for you.  
Shapes might be upside down or sideways.  
Cut out all these pictures of Strider.  
Find the the right fit on the puzzle board.

Strider's Puzzle Board

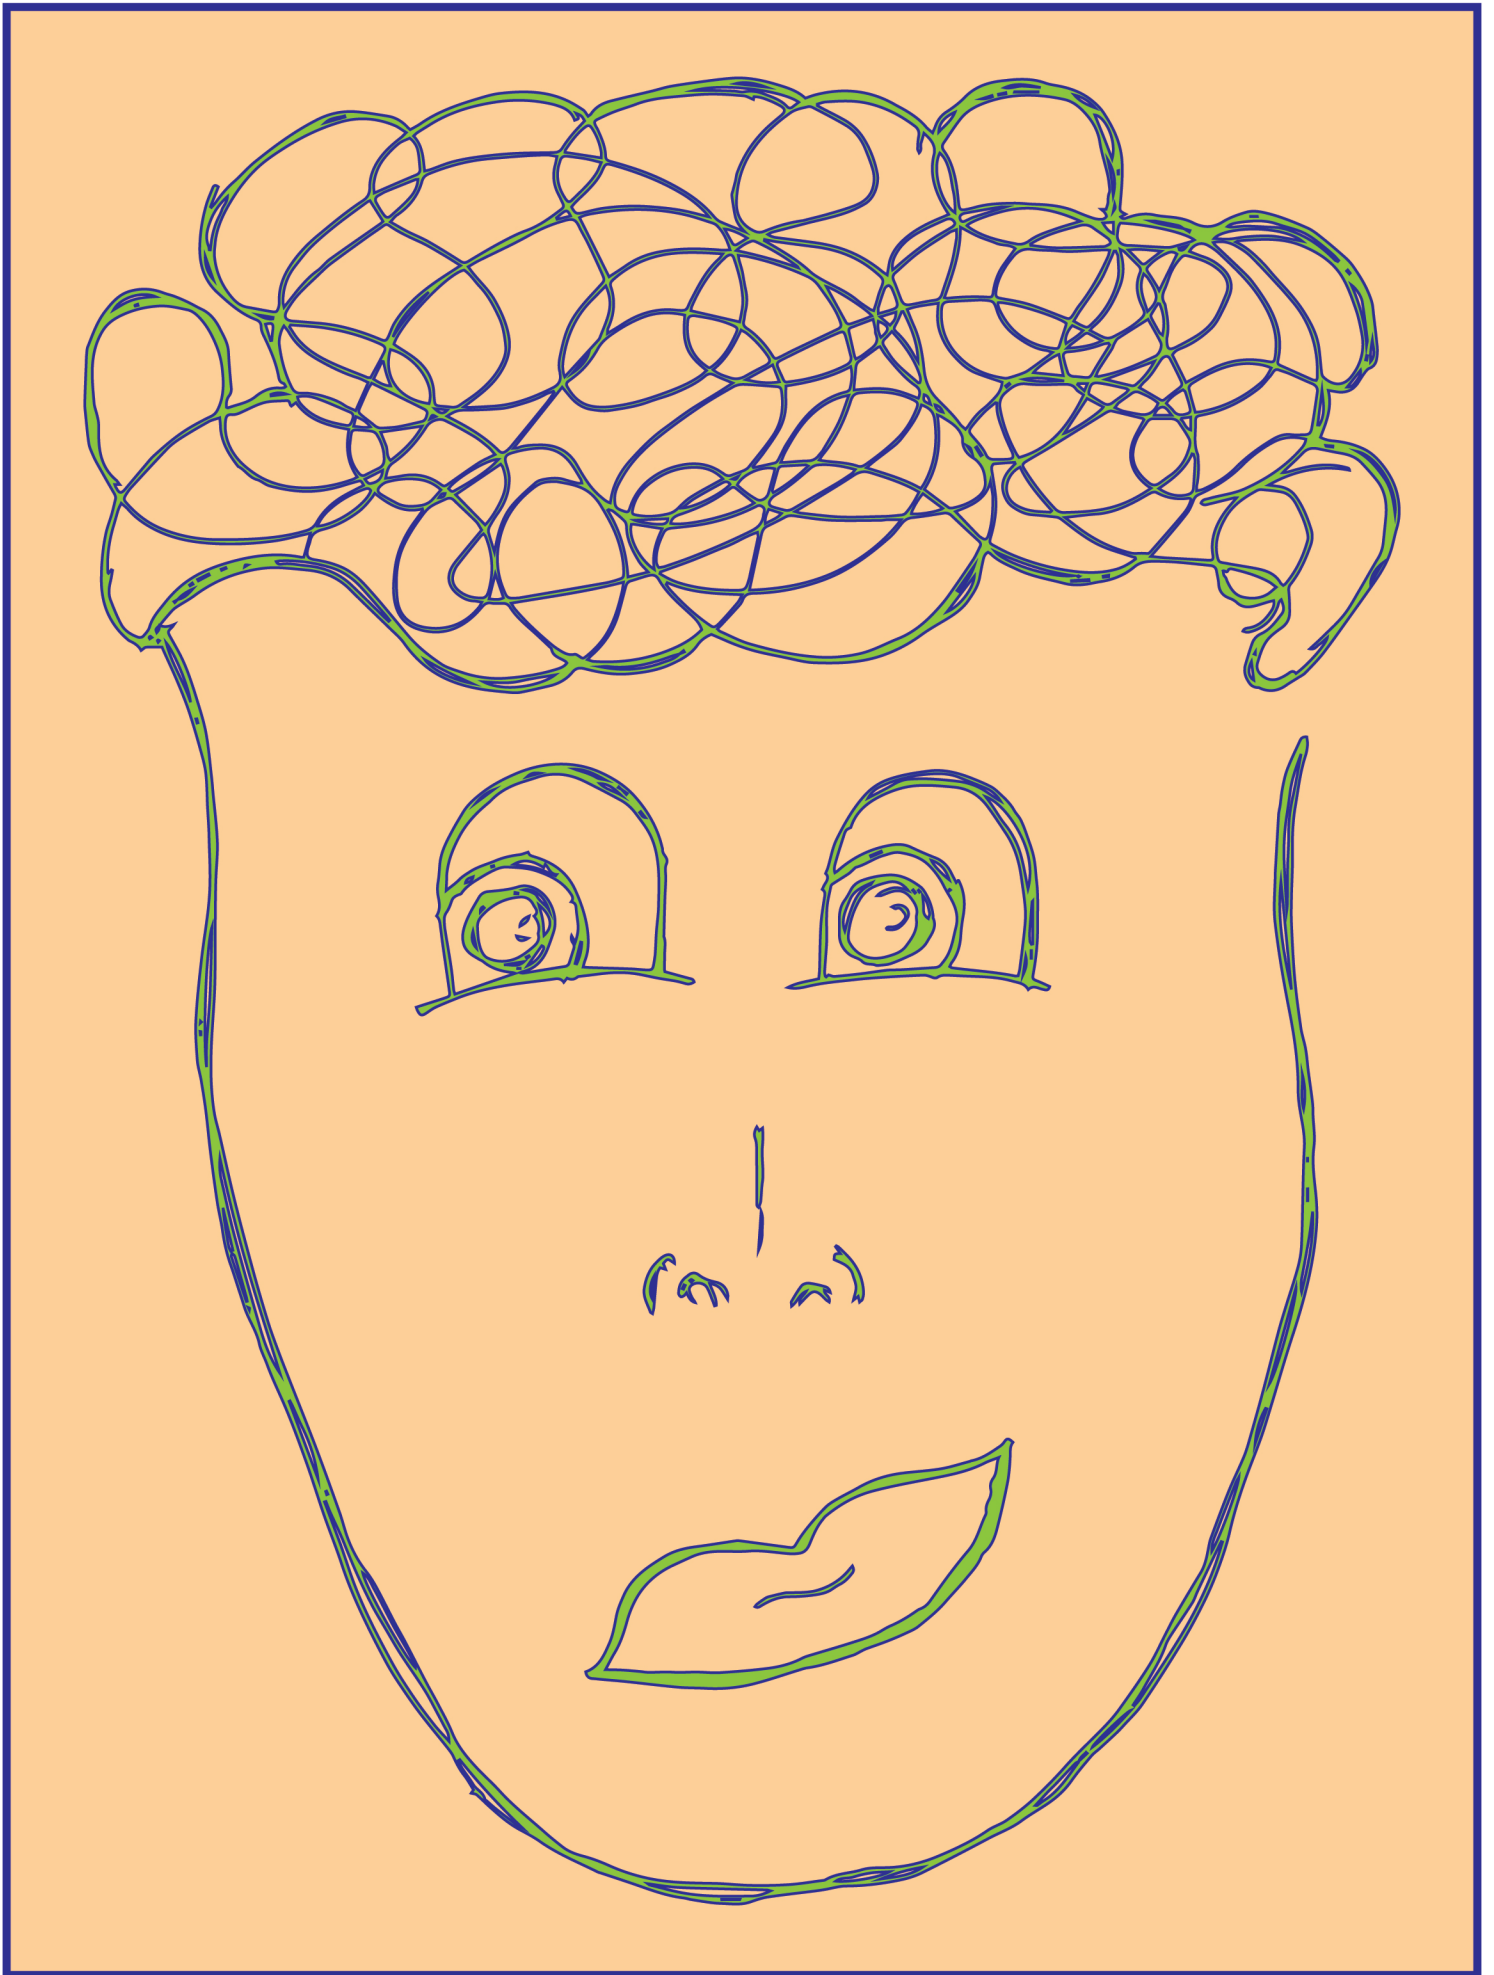

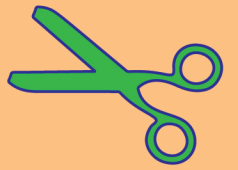

Don't Cut This Page
